MCI Project Weekly Time Sheet

	Team	7		Student ID		a1865304	Week starting:	20-Mar

Day	Date	Time In	Time Out	Total	Task	How does it fit ito project plan?	Outcome/Next action
Monday	20/3/2023	3:00 PM	6:30 PM	3.5	1. participated in Monday lecture, and had got some modification suggestions from lecturer; 2. extracted our pitch slides into more precise one accroding to lecturer's advice.	A precise and clear pitch slides helps our team members and invester to understand our product, including functionalities, target users and conduction plan.	the final version of pitch slides has delivered, next task is to record our individual presentation for different parts of the slides.
Tuesday	21/3/2023	10:00 AM	1:30 PM	3.5	1. Gary Chen had found some pyhton API packages to implement some languages conversions, as a result, we were thinking about to change our back-end tech stacks into python Django, but had not decided yet, because node.js is the commonly used one in current industrial application. Searching for more APIs to make decision.	the core function of our porject is to implement "converting", the way we would like to do is to find an open-source API to plug in our back-end system, and the language the API used is related to our language to develop the back-end, so it is meaningful to spend time on it.	had found 5 GitHub open-source project related to programming language converting, and most of them are wroten by Python. We may need to change our tech stacks of back-end.
Wednesday	22/3/2023	10:00 PM	9:00 PM	11	1. wrote script for my part of slides; 2. record my part; 3. make suggestions to connect each video; 4. cut some extra useless video and link our individual parts into one uniform team presentation video. 5. uploaded it to youtube and patse the link to assginment submission.	A vivid and strong pitch presentation can grab the attention of investors and persuade them to invest.	the first version of team presentation video was delivered, next, we may do some modifications.
Thursday	23/3/2023	10:00 AM	13:00:00 pm	3	1. had rerecorded my part of presentation, because I think my tone is not motivated enough	A positive tone sets the tone for the entire atmosphere of pitch.	finished my final version, and reuploaded to submission, next task is to write bussness case.
Sunday	26/3/2023	10:00 AM	4:00 PM	6	1. started to learn python and python Django	key to implement back-end->entire project	done python sytax study and started to learn Django.
